

ANCH Christmas song

Sandra, she teaches with a smile
There after, she gossips a while
Always ready, to help and give hand
Loved by prof, post-doc and student

Jempie, can we borrow your key
I said Jempie, are you listening to me
'Cause we're locked out of our office room
And we need to get in there

It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
They have everything for chemists to enjoy
You can hang out with all the girls
It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
You can get yourself cleaned, you can have a good lay
You can do whatever you feel

Frankie, he's too hot to stay here
He is leaving to go down to the sphere
To join penguins in their couple season
He is practicing from now on

Anouk, she's not a chemist only
She extracted biologically
And the extract is growing in her belly
For nine months incubation

It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
They have everything for chemists to enjoy
You can hang out with all the girls
It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
You can get yourself cleaned, you can have a good lay
You can do whatever you feel

Natasha, same office with our friend
We know, all secrets of the time spent
Always together, looking straight in the eyes
And what happens under the desk...

Martine, she was no human before
She had fins on her hands, feet for sure
Diving, up and down the river
As a frog, fish, eal or beaver

It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
They have everything for chemists to enjoy
You can hang out with all the girls
It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H

You can get yourself cleaned, you can have a good lay
You can do whatever you feel

Martine, you order the products we need
Even, if it's coke, XTC or speed
And the profit goes directly to us
By check, cash or wire transfer

Willy, head of the crew,
Did you know, that all the girls love you
And even some guys, you impressed for a while
With your kindness, spirit and knowledge

Cristina, number one and two
Homira, Emilie, Yue, Perrine, Steph, Fjo, Veerle, Remy and Leen too
Karen, Ann-Ju, Maité and Fabrice
And what rimes on Carmen and Michael

It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
They have everything for chemists to enjoy
You can hang out with all the girls
It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
You can get yourself cleaned, you can have a good lay
You can do whatever you feel

ANCH – ANCH – ANCH – ANCH

It's fun to stay at the A-N-C-H, it's fun to stay at the A-N-C-H
You can get yourself cleaned, you can have a good lay
You can do whatever you feel

(added afterwards by Natasha)

Marcus! His experimental designs
the girls love it! When he speaks about signs Numbers and errors! Oh they
bring him so high Oh tell us more on re-production

Hermes! He's the greenest of all
Politician! He has stopped this for a while Now he wants to be a doctor for
all before he's president of Flanders!

Jeroen! Stop doing these silly songs
You must be working! D-O-N waits for to long Please hurry on! Your thesis
has to go on But please continue to be crazy

It's good to be at theA-N-C-H
