

The Lightweight Structures Lab  
invites you to the lecture of

# Lancelot Coar

The future is flexible:  
searching for construction logic in a pliable world.

May 19 2017 - 13:30  
seminar room ARCH - building K

Lancelot Coar is an Associate Professor in the [Department of Architecture at the University of Manitoba](#), specializing in undergraduate and masters level design studio and construction technology lecture courses and is a researcher at the [Centre for Architectural Structures and Technology \(CAST\)](#). His research at CAST focuses on exploring the techniques and methods necessary to encourage building materials to assist in the act of form finding through material behaviour.
