News
The research group is delighted to have acquired two new research projects. Recently, the Flemish Fund of Scientific Research (FWO) decided to grant funding for the project 'Cataloguing the Customs of Trade: Looking Behind the Labels (Amsterdam and Lyon, 1700–1730)', as well as for the project 'Competing Corporations, Brokering Rules: Marine Insurance in France and Belgium (ca 1808–ca 1860)'. This means that the research group will be reinforced with two new researchers in 2016.
