

STRATEGIC PLATFORMS WITHIN THE BRUSSELS REGION (PFS)

Based on the IRSIB contacts with companies within the Brussels Region, 3 themes for possible strategic platforms have been identified:

	Theme	Possible industrial partners
1	Mobile Computing Applications	Advanco, Getyoo, Be-Mobile, MyServices, Mondial Telecom, Mobistar, The eID Company, Ubidata, Routing, MobileToken, Kiala, ...
2	2D/3D imaging	Softkinetic, Optrima, VRContext, Macq, DS Improve, dePinxi, Trinity Engineering, Elsys, ...
3	Knowledge Management	Mentis, Attentio, Collibra, Vadis, Bitong, Memnon, RTBF, Auxipress, ...

These topics will be further refined by talking with the academic partners, and then with representatives from industry, who will ultimately decide which topics are of most interest to them. A call for proposals will be launched for projects within these further refined 3 themes.

	Activity per strategic platform	Provisional Timing
1	Meeting IRSIB with academic partners/public authorities → <u>Objective</u> : to identify a few possible themes for strategic collaboration to present to representatives for the industry → with a vision on industrial applications → Creation of a list of possible themes beforehand	March/April 2010
2	Meeting IRSIB with representatives from industry → final identification of sub-themes	April/May 2010
3	Launching of a call for projects within the three refined themes	End of May 2010
4	Deadline call for projects (FPP-Full Project Proposal)	August 2nd, 2010

Other initiatives will be taken to maximize a continued close collaboration between people from industry and the chosen projects within these platforms.
