

WORKSHOP

Nanobody Imaging and Therapy

5 NOVEMBER 2009

13:00 Introduction and Welcome

Tony LAHOUTTE, Ph.D.

In vivo Cellular and Molecular Imaging
Vrije Universiteit Brussel

13:20 Nanobodies, a Versatile Tool for Research and Diagnostic Applications

Serge MUYLDERMANS, Ph.D.

VIB Department of Molecular and Cellular Interactions
Vrije Universiteit Brussel

14:10 Novel Approaches to Protein Radiohalogenation : Impact on Tumor Targeting

Michael R. ZALUTSKY, Ph.D.

Jonathan Spicehandler M.D. Professor of Neuro-Oncology
Professor of Radiology, Radiation Oncology and
Biomedical Engineering
Director, Radiopharmaceutical Chemistry Laboratory
Duke University Medical Center
Durham, North Carolina 27710 USA

15:00 Coffee Break

15:30 Bringing Nanobodies to the Clinic

Hilde REVETS, Ph.D.

Sr Director Technology
Ablynx NV

16:20 Discussion and Closing Remark

Auditorium Kiekens
Universitair Ziekenhuis Brussel
Laarbeeklaan 101 1090 Brussel

hospital main entrance, follow 

Registration Hilde.Vindevoghel@uzbrussel.be
