

RESEARCH SEMINARS 2009-2010
UPDATE December 2009

- ~~16.10.09~~ ~~**F. FUKS**~~ – ~~Laboratory of Cancer Epigenetics, ULB~~
~~"Mechanisms of epigenetic: from chromatin to cancer"~~
- 23.10.09 **D. EIZIRIK** – Laboratory of Experimental Medicine, ULB
"Gene networks regulating beta cell apoptosis in diabetes"
- 13.11.09 **S. DROOGMANS** – Dienst Cardiologie, UZ Brussel
"Detection, follow-up and prevention of drug-induced valvular heart disease in an in vivo rat model"
- 27.11.09 **V. UMBRAIN** – Dienst Anesthesie en Centrum voor Pijn, UZ Brussel
"Optimising the therapeutic use of local anaesthetics"
- 04.12.09 **B. KEFAS** – Dept of Neurology, U. of Virginia, USA
"The expression and role of microRNA-7 and -326 in the survival of glioma and glioma stem cells"
- 11.12.09 **L. SHI** – Dept of Neuroscience, Johnson & Johnson, Pharmaceutical Research & Development, Beerse
"Translational Pain Research; from bench to bedside and back"
- 12.02.10 **U. ULLMANN** – Centrum Medische Genetica, UZ Brussel
"Human embryonic stem cell derivation and optimisation of cultures: characterisation of Epithelial-Mesenchymal Transition in feeder-free cultures"
- 26.02.10 **R. CLINCKERS** – Dept of Pharmaceutical Chemistry and Drug Analysis, VUB/Div. of Pharmacology, Leiden/Amsterdam Center for Drug Research (LACDR) Leiden University, The Netherlands
"Targeting the Diseased Brain"
- 19.03.10 **A. MASSIE** – Dept of Pharmaceutical Chemistry and Drug Analysis, Experimental Neuropharmacology, VUB
"Glutamate transport in animal models for neurological disorders"
- 26.03.10 **S. VAN DER SPIEGEL** – Directorate-General Health and Consumer Protection, European Commission
"Overview on EU legislation in the field of tissues, cells and advanced therapies"
- 02.04.10 **M. VINKEN & E. DECROCK** – Dept of Toxicology, VUB/Dept of Basic Medical Sciences, UGent
"Connexin-related signaling in cell death"
- 30.04.10 **X. XU** – Diabetes Research Center
"Stem-cells in adult pancreas for beta cell therapy?"

Building A, Auditorium Vanden Driessche, 13h00-14h00
