WHAT

The Sustainability Bootcamp will bundle academic expertise into one condensed lecture series during the second week of the Easter holidays.

The multidisciplinarity of the experts and renowned lecturers will add an extra dimension to the Bootcamp, necessary to understand the broader picture of this subject.

Testimonials by amongst others Colruyt Group, Engie, Triodos Bank, the European Commission...

FOR WHOM

Because of its interdisciplinarity, the camp appeals to a wide and divers range of potential participants with different backgrounds.

One of the main targeted groups will be any company manager or employee who is confronted with sustainability issues in daily work and who is in need of more knowledge with regards to the subject.

Additionally, dedicated CSR or sustainability managers and officers looking to increase their knowledge are also targetted.

Finally, (recent) graduates and current (PhD) students with a specific interest in sustainability are welcome as well.

HOW

The Sustainability Bootcamp consists out of an introductory session and four thematic modules spread out over the four days and an active closing activity.

PRACTICAL

All practical information (tuition fee, registration) can be found on:
