The International Society for the Study of Self-Injury (ISSS) is pleased to announce a pre-conference clinical workshop on the treatment of NSSI. Several international experts will share their insights into state-of-the-art interventions in the treatment of NSSI in adolescents and adults.

- What neurobiology teaches us about NSSI and why this knowledge helps in clinical practice (prof. Plener – University of Ulm, Germany)
- Supervision when working with self-Injury (Tooher, K., Gordon, E. & McElvaney, R. - Self-Injury Ireland)
- Using functional assessment to inform care planning (prof. Turner – University of Victoria, Canada)
- A unified protocol for the treatment of NSSI (Slesinger, N. & Washburn, J. - Northwestern University Feinberg School of Medicine, USA)
- The clinical workshop is held in English.

Price: 110 euro
